Company History

American Eagle Food Machinery has been manufacturing and distributing commercial bakery and restaurant equipment for over 30 years! Based out of Chicago, IL, their products serve the entire North American food service industry.

The company was founded in 1980 and began to sell under the American Eagle brand in 1994, with the mission of providing restaurant and bakery equipment with quality, value, and reliability to a wide range of food service professionals. Whether a national chain, small restaurant or bakery owner, a professional chef, a hunter that needs to process meat, an animal lover wanting to make homemade pet food, or simply a home food enthusiast, American Eagle offers a variety of products to suit those needs!

Proud Member Of:

Our Vision

Quality

We are uncompromising in the quality of machine design and materials. We built our reputation over decades of tireless effort, and believe that quality manufacturing best serves the environment, our customers, and our company in the long term. High quality means increased sustainability and reduced waste.

Value

We believe in maximizing value for our customers by offering high quality equipment with versatile designs at the best prices. Our goal is to help customers boost productivity and lower operating costs, no matter what kind of business they operate.

Reliability

We commit to honesty and integrity in both our business relationships and in our products. We stock over 90% of our products and parts to provide reliable support in a timely manner and ensure customer satisfaction.
